

Business Unit	Production – Stores
Job Title	Stores and Logistics Supervisor
Reporting to	Stores Manager
Date	July 2026
Location	Monkstown, Northern Ireland

Welcome to CDE Global

CDE Global is the leading provider of wet processing equipment for quarries, mines and recycling operations on the global market. The CDE equipment range has applications across a wide range of materials and is delivering significant efficiencies in the construction and recycling, mining, specialist industrial sands and environmental sectors.

Working across 5 industry sectors and 8 strategic regions globally, CDE has been co-creating with customers for over 20 years. The team has been widely recognised for challenging the paradigm of traditional washing equipment supply and delivering collaborative, imaginative and unique processing systems. Our team thrives in an environment where people are genuinely empowered to lead and deliver highly strategic and innovative projects.

CDE Global is now seeking to appoint a Stores and Logistics Supervisor to oversee the group's supply chain function. This role will be critical in the efficient delivery of our solutions across the Mining, Construction & Demolition Waste Recycling, Environmental, Industrial Sands and Sands & Aggregates sectors.

Reporting directly to the Stores Manager, you will have a key role within the Supply Chain Team and significant input into the strategic direction of the department. You will work closely with other teams including IT, Engineering, Production, Procurement and Planning.

This position is based in Monkstown, Northern Ireland.

Job Purpose

The Stores and Logistics Supervisor is responsible for leading the stores function and managing inter-site logistics and transport operations to ensure the efficient, safe, and timely flow of materials. The role works closely with cross-functional teams to deliver outstanding service to operations, supporting production and business objectives.

Please note, this job description is not exhaustive as other duties may be required to fulfil the requirements of the role.

Key Responsibilities

Stores and Inventory Management

- Lead and supervise a team of Stores Operatives, ensuring high performance, engagement, and adherence to standards

- Manage goods receipt, storage, issuing, and dispatch activities
- Ensure accurate inventory control, stock integrity, and cycle counting processes
- Maintain optimal stock levels to support uninterrupted operations
- Ensure all materials are correctly identified, stored, and handled in line with company procedures

Logistics and Transport Coordination

- Plan and manage inter-site logistics operations, ensuring timely and cost-effective movement of materials
- Coordinate internal and external transport providers
- Monitor delivery schedules and resolve any logistics issues proactively
- Ensure full compliance with transport regulations and company policies

Operational Support and cross Functional Collaboration

- Work closely with Production, Procurement, Planning, and Quality teams to align material availability with operational requirements
- Support continuous improvement initiatives to enhance service levels, efficiency, and cost control
- Act as a key point of contact for logistics and stores-related queries

Team Leadership and Development

- Provide day-to-day leadership, coaching, and development of Stores Operatives
- Set clear objectives and performance expectations for the team
- Promote a culture of accountability, safety, and continuous improvement

Health, Safety and Compliance

- Ensure safe working practices are always adhered to
- Maintain compliance with company policies, procedures, and regulatory requirements
- Support audits and ensure corrective actions are implemented

Continuous Improvement

- Identify and implement process improvements within stores and logistics operations
- Drive efficiency, accuracy, and cost-saving initiatives
- Utilize KPI data to monitor performance and implement corrective actions
-

Key Performance Indicators (KPIs)

- Inventory accuracy
- On-time delivery / inter-site transfer performance
- Stock availability
- Cost control within logistics and transport
- Team productivity and performance
- Health & safety compliance

Other

- To adhere to CDE policy and practice.
- To carry out any other duties within reason and capability associated with this role.

Skills, Knowledge and Experience

Essential

The successful candidate will:

- Proven experience in a stores, warehouse, or logistics supervisory role
- Experience managing inter site logistics and transport coordination
- Strong leadership and team management skills
- Solid understanding of inventory management systems and processes
- Excellent organisational and problem-solving abilities
- Strong communication and stakeholder management skills

Desirable

- Experience in a manufacturing or operational environment
- Knowledge of ERP/MRP systems
- Transport or logistics-related qualification

Personal Attributes

- Proactive and solution-focused
- Strong attention to detail and accuracy
- Ability to work under pressure and meet deadlines
- Collaborative and team-oriented
- Continuous improvement mindset

CDE are a global company and welcome applicants from all countries and backgrounds. Desirable criteria may be used for shortlisting. The Company reserves the right to vary criteria at the shortlisting stage.
